The Emmanuel Centre AT EMMANUEL COLLEGE

Opened in November 2016, the Emmanuel Centre is the South West region's largest venue with an auditorium that seats 1,500. The Emmanuel Centre is a truly versatile multi-purpose facility that is perfect for a wide range of events, small or large.

Located at the end of the Great Ocean Road, Warrnambool is a three-hour (258km) drive from Melbourne with train services to Warrnambool departing from Southern Cross station.

Warrnambool is a rich agriculture and dairying centre set in a beautiful natural environment. The city offers many attractions for tourists, including Logan's Beach, which is recognised as a nursery site for the Southern Right Whale. Warrnambool has: excellent accommodation options, a growing arts and culture scene and an extensive range of high-end sporting facilities and recreational opportunities.

The Emmanuel Centre is located within a short walk to Warrnambool's CBD.

AN EMMANUEL *Welcome*

The entry to the Emmanuel Centre is from the spacious Sinclair Wilson Forecourt – a welcoming space that features lighting, sculpture installations and outdoor seating. The story of the meaning behind the sculptural elements created by renowned artists Greg Romanis and Mark Trinham is located inside the Welsh Family Foyer.

The MIDFIELD AUDITORIUM

The Auditorium is a flexible space for a multitude of uses. Comfortably seating 1,500 people, the automated, retractable, stadium-style seating for 630 can be adjusted to cater for varying size events and uses and for a range of events including: conferences, exhibitions, dinners and expos. A further 900 stackable chairs may also be used. The chairs feature an integrated linking device than can be used to maintain the integrity of seating rows and the quiet seating for large groups.

Emmanuel College can assist with a seating plan for your event and can also assist with the setting up of seating and tables.

You can connect to fast Wi-Fi throughout the Centre by arrangement.

Although the Auditorium also has two sports courts it has no promotional or advertising signs. The interior of the building is designed to a visual standard that supports its multi-use purpose.

The ceiling of the auditorium is fitted with Soundscapes Shapes that significantly reduce background noise and reverberation time and enhance speech intelligibility. The panels are powdercoated with a special acoustic paint, which allows sound waves to pass through and be trapped in the panel.

See pages 10-13 for plans, dimensions and parking map.

DINNER CAPACITY

The auditorium can seat 900 for a banquet or 700 if a larger dance floor is required.

The facility is equipped with 70 round tables that each seat 10 people.

FULLY EQUIPPED COMMERCIAL KITCHEN

The Emmanuel Centre has a fully equipped commercial kitchen supplied with catering equipment to the highest industry standard and can supply all crockery, cutlery and water glasses for up to 700. Extra equipment may be hired locally.

STAGE AND AUDIOVISUALS

The Emmanuel Centre is the perfect venue in which to see and hear guest speakers or musicians. Three large audio-visual screens for displaying multimedia or a live camera feed flank the stage. Audio and visuals to the screen or lectern are easy to operate via supplied iPads. These may be operated via the stage or from a bio box with a clear view of the stage and auditorium and is accessible by stairs at the rear of the auditorium. A lectern and microphones are provided. Along with removable stairs, the stage is also accessible by lift, making it easy to load equipment.

FOYERS AND BREAKOUT SPACES

Multiple foyers provide ample room for breakout spaces, registration desks and photo areas. The large Callaghan Foyer has a large screen TV. Two smaller foyers - the Welsh Family Foyer at the West end of the facility and the Melican Foyer at the East end.

Located at the rear of the stage are the Elizabeth Blackman Room and the McKinnon Room. Downstairs is the Clayton Harrington Room. These rooms are furnished with chairs and tables, along with large screens for screening audio visuals. Along with being used for group work, these rooms may also double as green rooms for performers.

HEATING AND COOLING

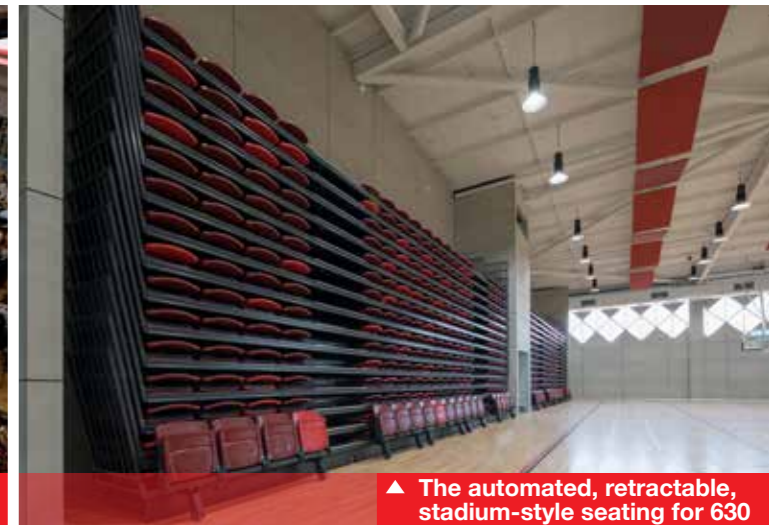

The Emmanuel Centre is equipped with an effective and easy to operate, thermostatically controlled heating and cooling system.

▲ The Callaghan Foyer

▲ The facility is equipped with 70 round tables that seat 10 per table

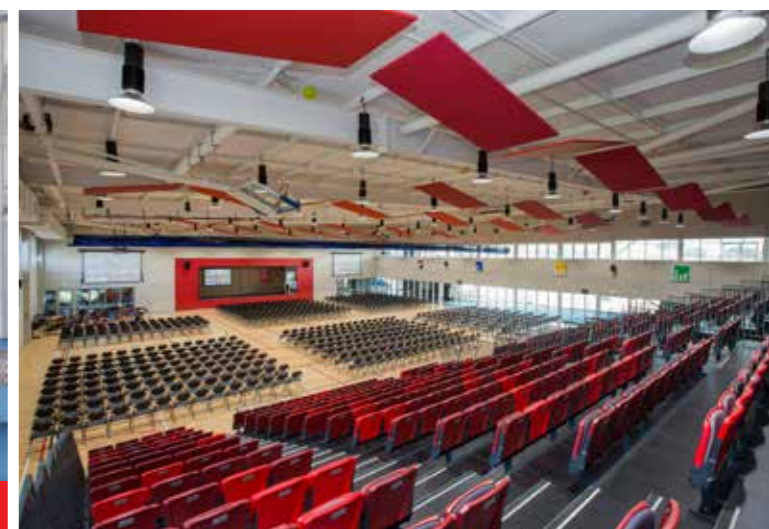

▲ The automated, retractable, stadium-style seating for 630

▲ The large Callaghan Foyer with a large screen TV

▲ Multiple foyers provide ample room for breakout spaces, registration desks and photo areas

A centre for SPORTS AND FITNESS

The Auditorium has two sports courts with a top range, high-performance sports floor system with a friction value approved for international standards. Constructed from sustainably sourced European Maple, it is light in colour with excellent light reflectance and great aesthetics.

Toilets, showers and change facilities are provided including accessible bathrooms for disability access.

The Jonathan Brown Gym contains a variety of cardio machines that use resistance to build strength and fitness.

The Emmanuel Centre's **Spin Bike Room** is fitted with 26 bikes engineered to fit all shapes, sizes and abilities. Cyclists are able to adjust their bike seat and handlebar positions to ensure correct cycling techniques and to minimise the risk of injury. A large screen TV can be used to screen motivational multimedia and training programs.

Please note that the use of the Gym and Spin Room requires the presence of a qualified instructor who has been briefed on use of the facility.

The Emmanuel Centre is located adjacent to a large sports oval and a second oval is located nearby at the Ardlie Street entrance.

Mezzanine Level

– THE FOUNDERS' ROOM

The Founder's Room on the mezzanine level is the perfect venue for a smaller conference or group-training event and is equally suitable for a wedding.

This area can accommodate: 200 for cocktails (standing), 120 for dining (round tables), 160 for dining (rectangular tables) or, with a dance

floor 120 (round tables) or 160 (rectangular tables). A portable dance floor would need to be hired if required.

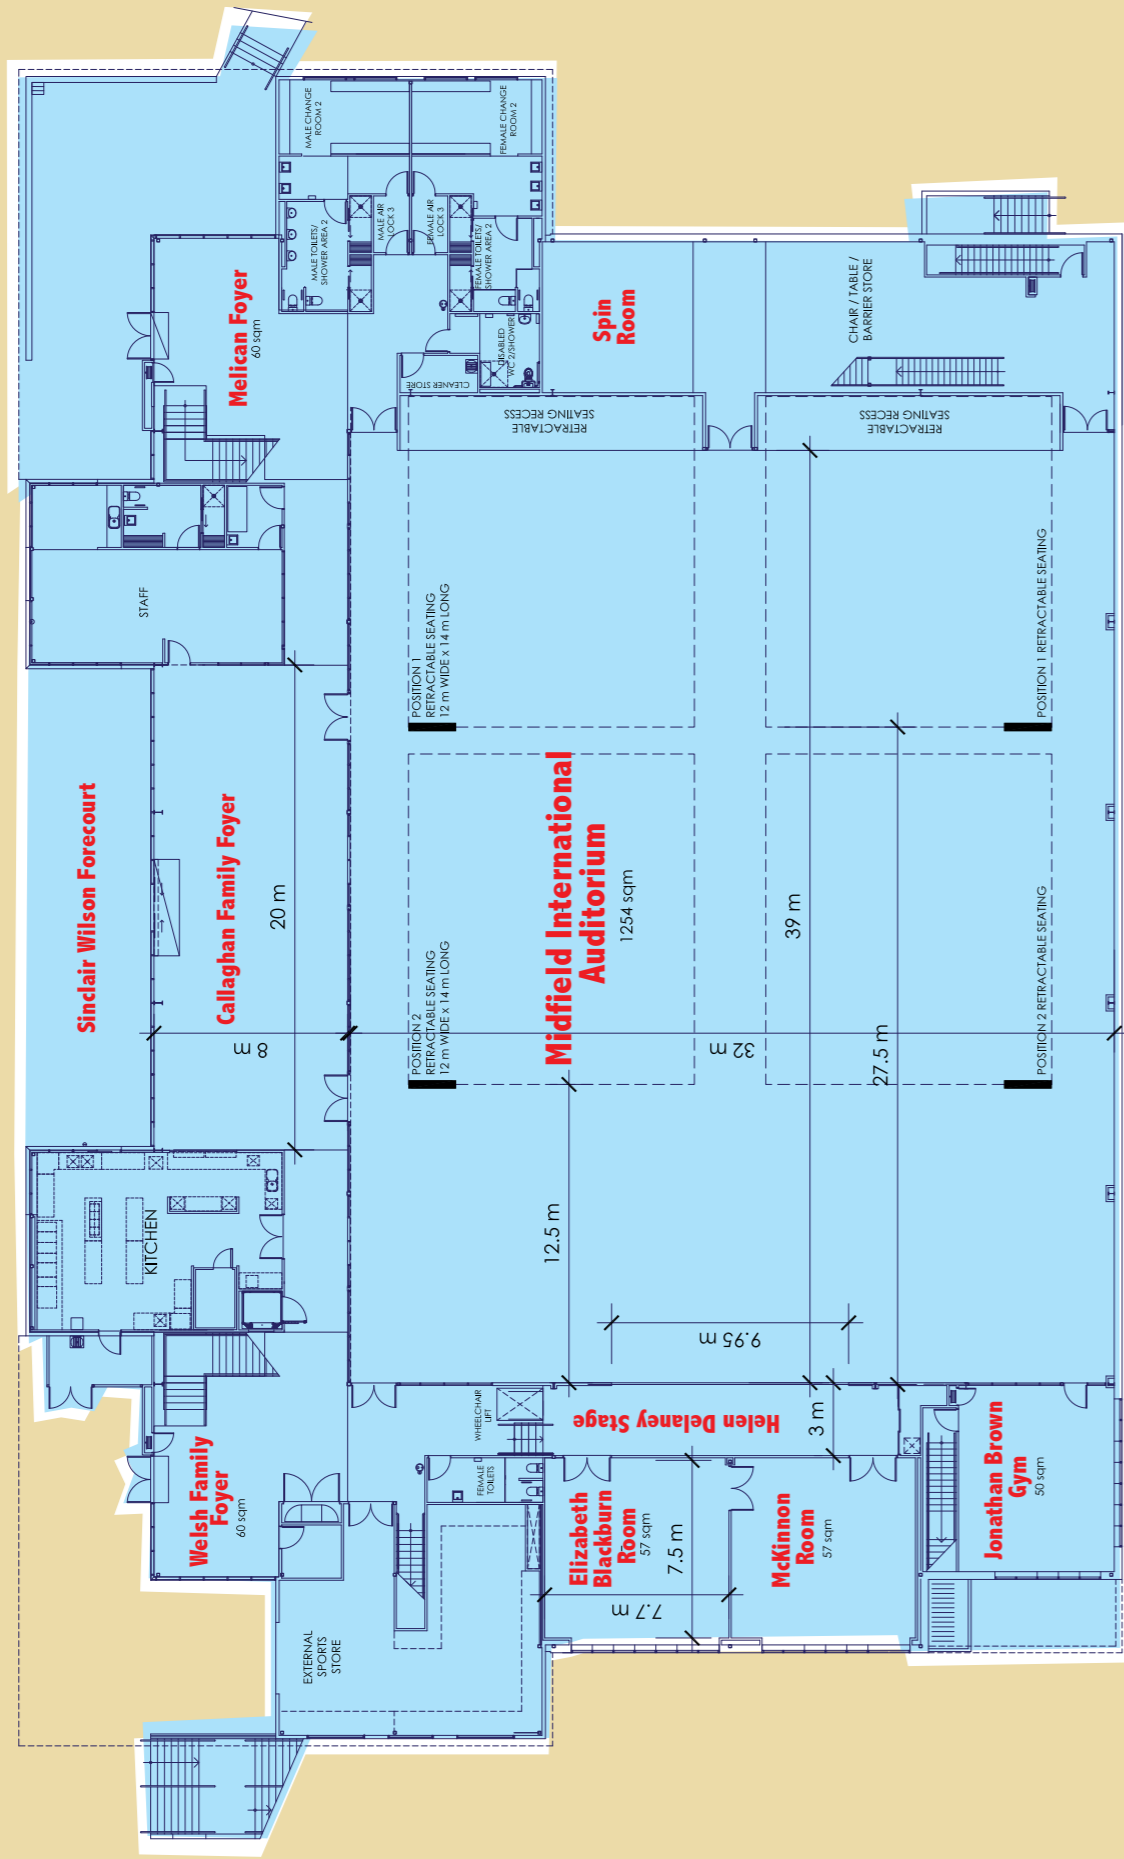

A lift provides quick and easy access to the mezzanine to assist less or non-ambulatory visitors and is also used to efficiently deliver food from the kitchen.

The mezzanine also has two outdoor areas that can be used for breakout spaces or to take refreshments outdoors.

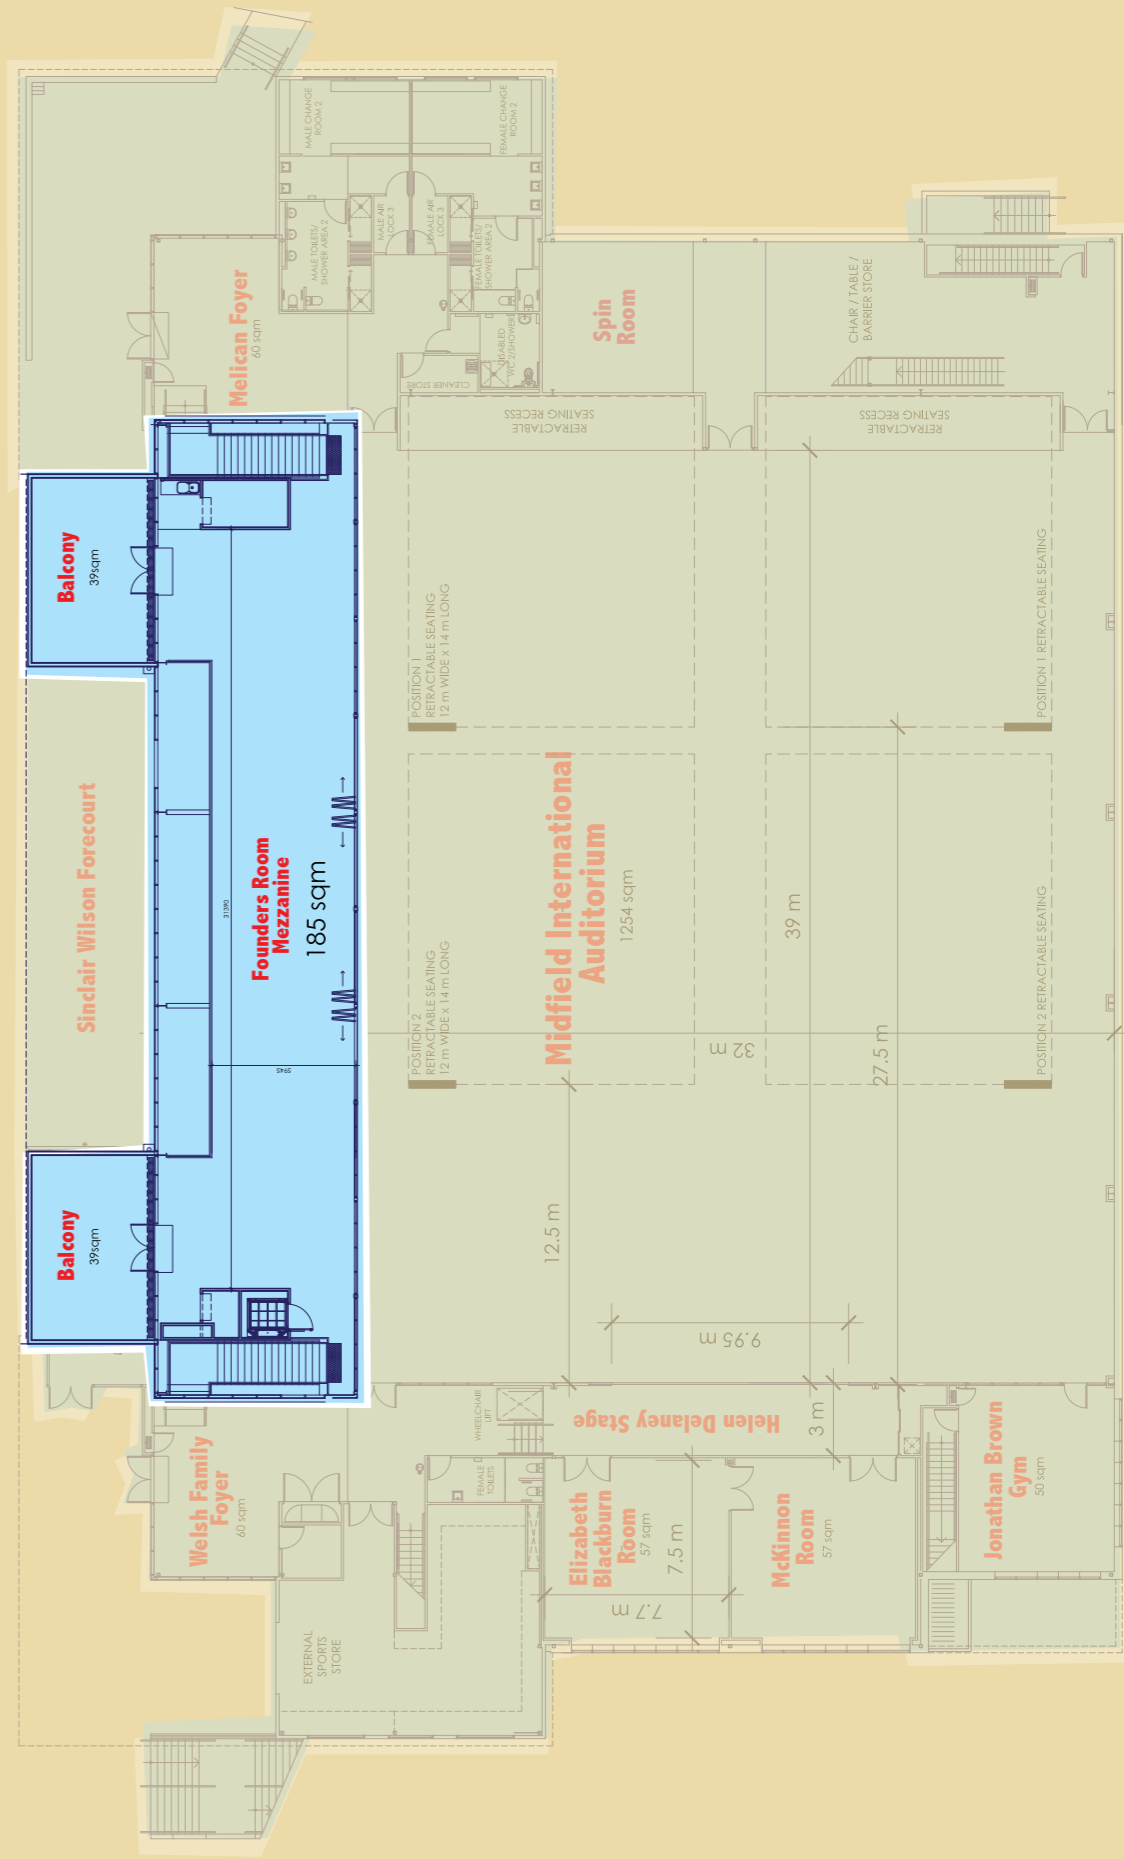

The East end of the room is equipped with: a large screen and audio facilities (including microphones and lectern), along with a concealed drinks fridge, sink and
